Whom do **ISIS** flag hoisters serve and Who does serve them

Now compare all these heinous crimes of ISIS with the Islamic ideology, Holly Quran and Hadith and decide yourself whom to follow and whom not? In fact majority of the globally population do not want the religion that may hurt human and humanity in one way or the other. And certainly, Islam nowhere allows the Muslims to perform such actions that may hurt the human and the humanity. Islam is the religion of peace, justice and truth.

By: Saif Ali Budgami

THE DAWN OF ISIS

The beginning of the second decade of 21st century has reluctantly changed many pages of different chapters of modern age from scientific development to human genocide, grand scientists remained busy in proving what's true and what's false? On the other hand some are still busy in proving who is right and who is wrong? Who is good and who is bad? Then who is Muslim and who is infidel? Etc.

In accordance with the same the fifth smell started to spread swiftly from Iraq and Syria and openly became known to whole world within no time, named as ISIS so called (Islamic State of Iraq and Syria). The image of this terrorist group is surely being well understood by majority of the Muslims by their aims & objectives. Since its motives have been open to all started from Iraq and Syria.

In the beginning of the 2014, ISIS claimed their presence in every country; rising to number of foreign European countries. After its deadliest and heinous crimes in many countries besides Iraq and Syria. Likewise Massacres, Suicide attacks, Rapes and human trafficking were the major ones. That surprisingly shocked the whole world and humanity at sudden. Every individual was in suspicion in one way or the other. One group opposed, another supported. One group claimed its links with America another claimed their religious links with it. One group linked them to Islam from Islam. Another rejected its links to Islam from Islam. One did link them to America and Israel another linked them to other countries. However people started to blame one another especially Muslims on the same crimes witnessed in Iraq and Syria. At the same time the real founders (America and Israel) enjoying their successive tactics working better for them. Most of the people are labeling it an Islamic Insurgent and terrorist group. But this is not so, this group is not Islamic but has been masked Islam image to defame the real image of Islam.

ISIS AND ITS ACTUAL MOTIVES

Now let's ask some questions to ourselves and find out their answers on our own. Does ISIS really belong to Islam? Or we are compelled to label it with Islam. How far does this Terrorist group (ISIS) resemble with the ideology of Islam? How far this group (ISIS) resemble with lessons of Holly Quran? How much does it benefit the realm of Islam? How much does it harm the realm of Islam? Being a human and an individual of humanity. I urge you to be relax for a while and try to figure out the answers of the same questions. Whether we are to follow the resemblance or differences? Whether we are to follow beneficial ways or harmful ideologies? Let me tentatively remind you the religion of ISIS.

- ISIS kidnapped and killed thousands of people ruthlessly.
- Raped thousands of poor women and murdered them in the name of sex jihad (Jihad-ul-Zina).

- They have destroyed many old Mosques, Churches and ancient places.
- They burnt their own soldiers in cages, for disclosing their identity.

Their usual targeting point was religious cites, especially Mosques through suicide attacks. Now compare all these heinous crimes of ISIS with the Islamic ideology, Holly Quran and Hadith and decide yourself whom to follow and whom not? In fact majority of the globally population do not want the religion that may hurt human and humanity in one way or the other. And certainly, Islam nowhere allows the Muslims to perform such actions that may hurt the human and the humanity. Islam is the religion of peace, justice and truth. Almighty Allah bestowed us Holly Quran for guidance but we have limited it to memorization and recitation only. Prayers, Fasts and Qur'anic recitation can not make a man perfect Muslim or human. But it is the sympathy, love and affection and other selflessness.

Let me quote a famous Urdu couplet

ترد دل کے واسطے پیدا کیا انسان کو
ورد طاعت کے لیے کچھ کو نہ تھے کر و بدن

Therefore how far do you think. This terrorist group sympathizes, the humanity with bombs, murders, rapes and destruction of major religious places. Alas! Still I receive the answer from many Muslims with, Yes.

ISIS USED IN KASHMIR

I really wonder under which justification has ISIS done such crimes. And I wonder what justification do some agents hoist the flags of this Terrorist organization in Kashmir. I wonder what kind of literature this ISIS and their followers rely on and what kind of inspiration agents get from this Terrorist organization. No, I don't wonder more now, as this terrorist organization was surely created by Israel and America and supported by many other countries. To create the same chaos and discord among Muslims and defame the name of Islam in front of Non-Muslims. And undoubtedly proved before years. And such crimes can only be committed by these countries, examples are the atomic bombs on Hiroshima Nagasaki, Gaza airstrikes, Israeli blockade and missile strikes on Palestinian people.

Shall we expect humanistic actions from such terrorists, off course not. But I feel ashamed to watch some well qualified and well educated boys and girls being misused by some Indian paid agencies trying to be active in Kashmir to harm the Kashmir Movement and divert the attention of people from Kashmir Freedom Movement by creating discord among the Muslims in Kashmir.

WHO CONDEMNS ISIS AND RAISING ITS FLAGS IN KASHMIR

Although some agencies are toiling hard to defame Kashmir and indigenous struggle. But on the other side. All the leading religious and Hurriyat Leaders have been condemning these shameful activities in the valley from the very beginning. And always try to revert the diverted people. The latest of these include the speech of newly chosen Chief of Hurriyat

Mohammad Ashraf Sehrai

"ISIS and Al-Qaeda have nothing to do with our Movement and we will never accept them. Some youth are influenced by ISIS ideology, but I appeal them not to go to extremes, and read Islamic books, The Holly Quran and Hadith. Thus those hoisting ISIS flags strengthening the roots of occupation in Kashmir. We have close watch on those who Hoist ISIS flags and will be treated strictly" Said Sehrai.

The youth inspired by ISIS have very good excuse on the tip of the tongue. "We raise ISIS flag because it has (Kalimah Towheed) written on it. We have nothing to do with ISIS. We follow (Kalimah Towheed) not ISIS. But let me tell you we embrace your love for (Towheed) and may Allah risen your love more for (Towheed). But have you ever thought whom do you benefit by raising these flags in Kashmir valley. I salute your love and affection for (Towheed). But currently your love and affection is being misused and hijacked. Have you ever tried to know? What flag stands for? Which flag is assigned to which ideology and group. A flag is itself a sign and representation. The colors, fonts, and structure and the signs are unique representation. A flag is the sign that differs one group from other, one organization from other. Even if your activities don't resemble but raising flags represent you from them. The name, structure and color were wisely and knowingly chosen to defame the name of Islam with its own flag by its own people inside its own land. The result of which is best known to all especially in Kashmir.

Before 2014 there was no sign of this flag in the world, I don't mean the words or characters but the font, color and structure. Since it rose in 2014 everyone came to know this Terrorist group with this flag. Therefore raising this flag after their heinous crimes in Iraq and Syria. Became the representation of this specific this Terrorist group specifically. It does not represent (Kalimah Towheed) now but terrorism. Raising this flag now does not represent your love towards (Towheed) now, but towards ISIS.

If you really love (Kalimah Towheed) at least you can change color, font and structure. As similar flag means similar ideology, similar motive and similar activities. Means if you are similar in flag then you are similar in ideology, motive and activities. And the activities of ISIS has already been highlighted.

I accept practically ISIS is nowhere seen in Kashmir, but have seen thousands of followers of this hidden flag activity. As some anonymous social media users are playing active role in support of them in Facebook, Twitter, and Instagram. Encouraged, appreciated and blessed by many people simultaneously.

At the at we shall conclude here on pledging not to let the enemy to war as from backdoors during our deep slumber. And we will not do any action that may harm the movement in one way or the other.

The Candle of Hope

Expectation is demanding exactly what we want to happen regardless of what is actually happening.

Expectations are limited to our previous experiences. We are unable to expect something that we haven't seen before. We cannot expect something better than what we know. Hope on the other hand is much different. While expectation is the assumption that something is actually going to happen, false or not, hope is the wish for something to happen.

SHOWKAT HUSSAIN

Hope is a light that enters us from the cracks of the walls of disappointments and obstacles. It gives man a confidence to stand strong against the obstacles that come across our life. It is an optimistic state of mind that is based on expectation of positive outcomes with respect to events and circumstances in one's life... Literally it means "To cherish a desire with anticipation". It is a creative way of solving the problems of life or it prepares us to solve them enthusiastically. In the field of positive physiology, researchers have highlighted and focussed the role purpose and hope play in human thriving. Researchers found out this as a notable human capacity to look to the future and aspire to achieve desired states. A majority of our behaviour such as reading self-help books buying lottery tickets betrays what we hope for, instead of what we are and where we are. Sometimes this comes with an abstract notion or mixed with other human states.

1. Hope in the domain of fair
In the human nature, hope and fair have been

infused together. These two are born with man in his infancy and grow with him. The fair of pain, sufferings, poverty, and disability is a feeling that arises from within. On the other hand there is hope of security, comfort and prosperity and strength. Every hope and wish that is fulfilled is immediately replaced with other.

Fair and hope define and delimit our thoughts, conduct and goals and the very direction of our lives. Man chooses his path throughout life in accordance with the character and extent. The person whose thoughts are occupied with expectations of wealth, position and power defines their goals in their bases and directs his activities towards these goals. That which preoccupies his mind and concerns is the choice of such means and methods as will materialize his hopes and desires in the shortest time.

However, one who has liberated himself from the bandage of such desires does not devote his efforts to this kind of goals in an unlimited or unconditional manner, for he is master of himself and is free from the chains of such obsessions.

2. HOPE and faith

"Faith and hope are defined in the dictionary as follows; Faith is confidence or trust in a person or thing or a belief not based on proof and Hope is an optimistic attitude of mind based on an expectation or desire. Faith says it is so now, and hope says in the future it could happen. We need hope and faith, we can look at hope like a stepping stone in elementary school and pure faith as graduate school tests passed. When an individual has no thoughts of faith whatsoever then we must begin depositing hope seeds into their lives. Hope seeds planted in one's life can be the catalyst for the roots and the foundations of one's faith walk. Often times we have to introduce hope way before we can even

begin to think about serving 12 ounces of faith." At some point in our spiritual growth walk we must come to the graduation ceremony of hope for a particular thing. Faith being the substance of things hoped for means that we must have a base mind-set of faith in order to receive what we need from God. We have to truly know and believe that what we set our minds to believe and focus on is what will come to pass. Hope speaks of the future and faith speaks for the now in life. So once we graduate from hope to faith we will then begin to see the greater fruit of the seeds of our thought process now. We plant seeds everyday even if we think we do not.

3. Faith and expectations

Expectation is demanding exactly what we want to happen regardless of what is actually happening. Expectations are limited to our previous experiences. We are unable to expect something that we haven't seen before. We cannot expect something better than what we know. Hope on the other hand is much different. While expectation is the assumption that something is actually going to happen, false or not, hope is the wish for something to happen.

Hope is flexible. It is alive. It responds to all situations instead of battling against the ones that appear to be opposite.

In the Islamic context, hopelessness has been counted in major sins and humans have been time and again recommended to stay hopeful. The period of youth is an age of aspirations and hopes. TO quote Albert Einstein 'learn from yesterday, live for today, hope for tomorrow, the important thing is not to stop questioning.

Asia's largest tulip garden open for tourists in Srinagar

Srinagar: Asia's largest Tulip Garden was thrown open for visitors on Sunday. Located at the foot of Zabarwan hills, the garden is flanked by the manicured, lush green golf course in the north and the pristine Dal Lake at its entrance on the west.Spread over 360 kanals of picturesque land, the Tulip Garden is surrounded by the Mughal-era Chashm-e-Shahi garden and Pari Mahal observatory.This year, the Floriculture Department has planted about 50 varieties of Tulips on 200 kanals of land at the garden. "There are 50 varieties and 1.25 million tulips. The garden has a total of 600 kanals of land with tulips as a major crop growing on 200 kanals," said Mathora Masoom, Director Floriculture. She said that tourist footfall is expected to increase this year.Minister for Floriculture Javed Mustafa Mir, along with Minister for Tourism Tasaduq Hussain Mufti, formally declared the Tulip Garden open for visitors today.People in thousands thronged the garden to enjoy the beauty of blooming tulips on the sprawling lawns of the garden. On the occasion, the Floriculture Minister said, "All visitors are our guests and their place is

Jammu and Kashmir Itehad-ul-Muslimeen organized a grand function on its 56th anniversary and leaders praised the service of JKIM under the leadership Molvi Abbas Ansari in promoting religion and education ethics in valley and appreciated his contribution in ongoing freedom struggle and also for promoting Unity among People of J&K.
